The Counsel of Colt, DAVID GRAHAM, Jr., DUDLEY SELDEN and ROBERT EMMETT, Esqrs., a day or two since, prepared a long and elaborate PROTEST against the Execution of Colt, addressed to the Sheriff of the County. It was handed to us for publication, and some 3,000 copies were struck off; but it was finally suppressed through fear that it might wear the semblance of an attempt to overawe the Sheriff in the discharge of his duty. These copies were therefore sent to our country subscribers, which will account for its having returned to this city reprinted in other papers. We publish this important document complete in an Extra Tribune this morning. Copies may be obtained at the desk.

Rhode Island.

The new legally formed Constitution of this State will be voted on by the People on Monday Tuesday and Wednesday, and adopted, for the Dorrites avow their determination not to vote upor it either way. If they had done this last April. instead of rallying all their forces and uniting with the stubborn, uncompromising Landholders to vote down the former Constitution, all would have been settled before this time, and that frightful 'King Charles's Charter,' which they hold in such abhorrence, would have been consigned to oblivion .-But they pulled out their last man to vote down the legally formed Constitution, and thereby clearly though unintentionally, admitted that their own Constitution was the merest waste-paper; for it that had been valid, the other, having been formed after it, must have been utterly null and void, and they might as well have been voting upon a new Charter proposed by Queen Victoria. We rejoice that time for reflection has induced the Dorr mer to take a wider and a juster course at the time The adoption of the new Constitution next week will make three-fourths of them Legal Voters i they choose to be such, and then they can peace fully, constitutionally set to work to modify this Constitution, if they desire it.

But what shall we say of those who continue to pervert and misstate the whole subject in dispute, in order to subserve the cause of Loco-Focoism b stirring up the bitterest and most incendiary pa sions? Just look at the following passage from The New-York Sun of Wednesday last-long ter the 'Landholders,' as they are termed, had ! a second time formed a Constitution admitti Non-Freeholders to the Right of Suffrage, a while those same Landholders were doing the best to secure its adoption. In the face of the efforts, knewn of all intelligent men, The Si

"SOURREIGNTY.—In the State of Rhode Island the strigle for sovereignty between the soil and the people go hollyon. The soil has the minority and the old rendal for on its aide; the people have the intelligence, majori and right, on theirs. We must confess our predilections a

In this strain The Sun goes on canting through half a column, as it has done twenty times before in the face of repeated exposures of its fraud; a doubtless one-half of its readers believe to this d that the ferecious 'Algerines' of Rhode Island a fully determined that none but a 'Freehold shall there exercise the Right of Suffrage! not this cheat too mischievous, too monstrous ?-Must not the motive be bad which induces such a pertinacious cencealment and falsification?

The new legally formed Constitution of Rhode Island extends to all white natives of the United States who train or pay taxes to the amount of one dollar per annum (which any man may do who chooses) the Right of Suffrage, after a brief residence in the State. Natives of other countries (with colored natives of this country if the People shall so decide) are required to own \$134 worth of Real Property in the State, just as colored men bere are required to own \$250 worth, free and clear. in order that they may vote. We are opposed to all such distinctions, whether in New-York or Rhode Island, but know of no way of abolishing them other than by peaceful and constitutional Reform. This way will be open to the Non-Freeholders of Rhode Island as soon as the new Constitution shall have been adopted; for they will then have the power legally in their own hands. Whether those who are so averse to the representation of "dirt and gravel" in Rhode Island will be equally zealous to abolish such representation in New-York, remains to be seen.

The Execution of Coit.

This is the day appointed for the execution of the wretched murderer of Samuel Adams. More strenuous and persevering exertions to rescue him from this fate than we have ever known in any similar case have utterly failed of their intended effect, and only serve to show the impotence of all individual resistance to the power and majesty of the Law. Colt, we understand, has requested that the seatence may not be carried into effect until sunset to-day; and as the Sheriff is disposed to acquiesce so far as he can, consistently with a strict discharge of his duty, in all reasonable requests of the prisoner, we presume the execution will not take place until that hour. An answer to the application to the Chancellor to review his former decision, and to grant a hearing of the case before the Court of Errors, is expected from Albany this morning; but of course no one expects a reversal of his former opinion on the part of the Chancellor. Celt appears subdued, and to some degree penitent. He has steadily refused the attendance of any clergyman except Dr. Anthon.

Miss Henshaw, his former mistress, has visited Colt several times during the past week; and s consultation was held as to the propriety of their being married-for the purpose, of course, of securing the legal rights of herself and child. The result is not well known outside the prison, though it is most likely the ceremony was performed; it is certain that it has been contemplated.

DELTA' calls our attention to that part of Dr. SMITH's last Lecture, in which he said that "LIEBIG states many things which Dr. S. knows to be false"; and hopes the Doctor will take occaaion in his Lectures to specify some of them, that so sweeping a charge may not go unanswered.

Mr. George Schissler of Tonawanda was killed while hunting on the 11th, by the accidental discharge of his rifle. He had four times before accidentally discharged the same gun, and at the time of the fatal accident his hat brim had a bullet hole through it only an inch from his head.

The election of Parmenter (Loco) and of Bake Whig) to Congress is not yet certain. All beside stands as we stated vesterday.

There is evidently no choice for Governor, and not much for any thing else. The Loco-Foco claim to have elected 16 Senators to 8 Whigs, leav ing 16 vacancies, but we think the canvass wil show that more Whigs and less Loco-Focos have succeeded. The members yet to be chosen to the House will fill the vacancies in the Senate, (a mos anomalous and mistaken provision;) then the House will present two of the four highest candidates for Governor to the Senate, from which that body will choose the Governor. It is suggested that, if the Whigs have the power in the House, and the Senate should any hew be Loco, the House will present Davis and Sewall, (Abolition;) whereupon the Senate will choose Sewell, and so Massachusetts have a Political Abolitionist for Governor. But there is little danger that the two great parties will be reduced to such extremities.

JOEL B. SUTHERLAND, long a Jackson Member of Congress from Southwark, Philadelphia, and one of Dr. Burden's 'men of principle in proportion to their interest,' has, we hear, been appointed Naval Officer at Philadelphia, in place of a highly respectable merchant. This looks well for Noah's chance. If John Tyler had a real friend about him, he would certainly be told that this appointing eld broken-down politicians-no matter of what party-to office, is the sure way to use up the precious little strength he has.

'THE BETTER CURRENCY.'-An Eastern man lately undertook to buy goods in St. Louis, offering in payment a good \$100 bill of a New-York City Bank. Nobody would take the money-the traders must have Specie or Bank of Missouri notes. He tried the brokers, and they would discount it for five per cent.! Finally, the Bank of Missouri exchanged it at par to oblige him-probably having a demand for Eastern Exchange just at that moment. Nobody doubted the goodness of the bill

Mr. Stephen Mitchell, a respectable citizen of Kennebunk-port, Maine, in a fit of mental derangement, cut his throat, on Saturday the 29th ult. His insanity was caused by religious excitements, to deny it, he offers to state time, place and cirproduced by the Miller delusion.

MICHIGAN .- The Senate of this State will be entirely Leco; but the House has three Whigs .-We thought it was understood that the Whigs should not elect any. However, a few to watch our friends calmly await the Hour and the MAN.

The Editor of the Detroit Advertiser per sists in his declaration that ' John Tyler, Jr. is the author of the Letter in the Union signed Haon, if we may believe his own words,' uttered to the Editor himself. When the President's son chooses cumstances.

The Mary Rogers Mystery Explained. The terrible mystery which for more than a

year has hung over the fate of Mary Rogers,

stances such as convinced every one that she was the victim of hellish lust and then of murder, is at last explained-to the satisfrction, we doubt not of all. It may be recollected that associated with the tale of her disappearance was the name of Mrs. Loss, the woman who kept the refreshment house nearest the scene of her death. About a fortnight since—as we have already stated—this woman was accidentally wounded by the premature discharge of a gun in the hands of her son; the wound proved fatal; but before she died she sent for Justice Merritt, of New-Jersey, and told him the fellowing facts. On the Sunday of Miss Rogers's disappearance she came to her house from this city in company with a young physician, who undertook to procure for her a premature delivery .-While in the hands of the physician she died and a consultation was then held as to the disposal of her body. It was finally taken at night by the son of Mrs. Loss and sunk in the river where it was found. Her clothes were first tied up in a bundle and sunk in a pond on the land of Mr. James G. King in that neighborhood; but it was after ward thought they were not safe there, and they were accordingly taken and scattered through the woods as they were found. The name of the physician is unknown to us, nor do we know whether it was divulged or not. The Mayor has been made acquainted with these facts by Mr. Merritt, and we doubt not an immediate inquiry after the guilty wretch will be made. The son of Mrs. Loss, as an accessary after the fact, we suppose will be-if he has not already been-arrested. No doubt, we apprehend, can be entertained of the truth of this confession. It explains many things connected with the affair which before were wrapped in mystery-especially the apathy of the mother of Miss Rogers upon the discovery of her body. It will be remembered that she did not even go to identify it and made ne enquiries concerning the affair

Thus has this fearful mystery, which has struck fear and terror to so many hearts, been at last explained by circumstances in which no one can fail to perceive a Providential agency. Besides the guilty murderer, the secret rested with two persons. One of these, through the involuntary agency of the other, is laid upon her death bed-and then Conscience, no longer able to keep silence, breathes its accusation into the ear of Justice. We rejoice most deeply at this revelation, and that the scene of the unhappy victim's death is relieved of some of the horrors with which conjecture, apparently well-founded, had surrounded it. If we recollect aright some physicians of this city testified with great professional confidence as to the manner of her death-describing very minutely the kind and degree of personal violence to which she had been subjected. There statements are now shown to be baseless. Should not this tend to diminish somewhat the implicit reliance often placed upon the testimony of physicians in similar cases?

THE LONG ISLAND MURDERER .- We understand that a man was arrested about 20 miles from Huntington on Tuesday evening, who is, beyond all doubt, the murderer of Alexander Smith and wife. It seems that after perpetrating the horrid deed, he attempted to rifle his desk; but hearing the conversation of two teamsters whose wagons chanced to come in collision opposite the house, he was terrified, leaped out at the window and ran off. He was found in a barn, and upon him were the boots of his victim.

We do not believe Foreign Goods can be introduced, to any considerable extent, into Canada from the States, unless they are smuggled in. British Navigation laws and general policy forbid it. There can be no objection, however, to allowing drawback on goods imported on our Atlantic frontier and exported to Canada, provided they truly are so exported. There will be a fine opening for smuggling and Custom House swearing under such a system of Drawback if it be not carefully guarded in this respect. A bale that comes into New-York Siks will go out at Oswego mainly Sheetings or Paper, if not sharply looked after-while the Silks will remain here to be consumed, duty free. There can be no harm in exercising a prudent wariness.

LAW CASE .- A suit brought by a Mr. Smith against the Corporation of Pittsburg of considerable importance has been decided at Baltimore. The Pit:sburgh Sun says:

"The claim was to certain land, on which a portion of the city of Pittsburg is built, and was originally contested in one of the courts of that city; thence it was removed to Philadelphia, where, during the time it was pending, two of the lawyers engaged in the case were elevated to the bench, and were necessarily disqualified to adjudicate it; it was then carried to the Supreme Court at Washington; thence referred to Philadelphia; and finally, by a special act, we understand, brought into the United States Circuit Court of the District of Maryland, where it has been quietly laid to rest. The case involves property to the amount of millions of dollars."

CAN THIS BE TRUE !- The Westchester, Pa. Examiner contains the following extract from a letter dated October 1st, in Harrison County, Ohio. The writer is a personal friend of the 2152 Editor :

> "One of the most wicked acts was committed last week that I ever heard of. There was a Whig meeting held at St. Clair-ville, and there being no spring near the spot, water was conveyed there in casks. Into one of the casks was put a quantity of arsenic, of which more than two hundred persons drank before the alarming fact became known. Three men and one woman have since died, and a physician told a neighbor of mine yesterday that there were within his knowledge one hundred and sixty persons then laboring under the effects of the poisonous drug, many of whom he was apprehensive would not recover.'

SETH LUTHER, a well known character, who is in jail at Newport, R. I. on a charge of treason, (having been active in both of Dorr's campaigns, undertook to burn his way out on Wednesday. The correspondent of the Providence Chron-

"This morning, about 7 o'clock, a fire was disevered in one of the cells of the Jail in this town, occupied by that notorious old scoundrel, Seth Luther. The Jailor, Mr. Laggart, discovering the fire, opened the cell and threw in a bucket of water, and stepped aside for another, when Luther rushed out of the cell, and out of the front door, Locos may be well enough. For all beyond that, and ran as far as the State Honse, before he was overtaken by the Jailor, who had pursued him.

"Luther, previous to setting fire to the cell. blacked his face, so that he might pass for a negro, and then tied up his bed in the shape of a man, and put a shirt upon it, and placed it upon the hedstead, spreading the bedclothes over his effigy; this was all done to deceive the jailor, and make him suppose Luther was asleep. The cell was but the assistance of the engine."

FROM BERMUDA.-Bermuda dates to the 1st inst. have reached us. The Gazette of Oct. 1st states that a bottle was found at Shelly Bay a day or two before containing a letter signed by W. H. whose body was found, as our readers will well Morgan and John Rider, Captain and Mate of the remember, in the North River, under circumschooner Lexington, dated July 15, and stating that the vessel had sprung a leak in a heavy gale end that with the crew (consisting of three men) they had determined to leave her. Provisions for six days had been put into the boat. At the time of leaving her the schooner had three feet of waer in her hold.

FROM MOROCCO.-Our difficulties with Morocto have not yet been adjusted. They are, if possible, in a worse position than ever. Your Government will have to send a large naval force, and coerce the Emperer into terms of amity and respect. The Bashaw of Tangiers, who was appointed by the Emperor to treat with Com. Morgan, has refused to accede to his demands.

The matter has consequently been referred back again to the Emperor, who seems disposed to sustain the Bashaw. The United States cannot recede with dignity and self-respect. Our Consul, Mr. Mullowny, has not been recognised by the Emperor, and is waiting permission to return home. He will be sent out again, I trust, with demands which the United States will be prepared [Cor. Phil. N. Amer.

A TEXAS WONDER .- The " Enchanted Rock," which has long been celebrated as a place to which many of the tribes of Northern Indians pay periodical visits, for the purpose of performing their superstitious devotions, is situated on the "Sandy," a branch of the Perdinales; and is thus described

by a gentleman who has recently visited it: 'The feeling and imagination swell almost to reathless astonishment on beholding one immense solid rock of dark reddish color, rising to the hight of about 400 feet, and covering a space larger than a common mile race track, or about 200 acres of ground. Upon its surface there are several excaations or pits, one of which would hold several hundred hogsheads of water, from which there may under a peculiar state of the atmosphere exhalations escape and explode, doubtless giving rise to the traditions of its emitting light. The only evidences of the pilgrimage and worship of the Indians were the innumerable amount of deeply worn trails approaching in from every valley and lain, and the small pieces of loose rocks and peboles found upon its top.

This rock is composed almost entirely of a dark colored mica, and it is probably to the reflection of the rays of the sun or moon from the numerous glassy surfaces of the scales of mica that the brilliant appearance of the rock is attri-

STEAMBOAT DISASTER .- By letters received om Columbus, Geo., of the 11th instant, we are nformed of the melancholy disaster of the explosion of the boilers of the steamer Chamois, erroneously reported at first as the General Harrison. The boat grounded on the sand bar above Mount Version, and in attempting to get her off, the boilers exploded, killing the engineer, Mr. Vail, the teward "Halifax," and a Mr. Floyd, a deck hand; several others on board received more or ess injury. The Captain was standing at the ime on the boiler deck, and was thrown a great distance, but miraculously escaped, with some will prove an entire loss. This was the first trip of the boat up the river for this season, and she had a large freight on board, which is all damaged The deck hands were all engaged at the capstan hauling off, and are all more or less injured.

CAUTION TO MILLERS .- Recently a miller near Mobile, for some purpose or other, poured several bounds of melted lead in the eye of the runner-stone. The lead becoming loose and working between the stones, was ground up with the corn. The meal was consumed on the plantation of Mr. James G Lyon, and a number of his negroes were poisoned v it, some of whom died while others were paled and altogether helpless. It is said to be common thing for millers to use lead in this way and the misfortune just related ought to be a suficient warning against it. A similar accident ocurred recently in Europe.

A KIDNAPPER CAUGHT .- A man named Palmer, n Huron county, Ohio, was overtaken on Wednesday last near Norwalk, by several Kentuckians, whose slaves he had secreted, and was conveying them to the mouth of Huron, and from thence te be taken to Canada. He had thirteen under his charge, twelve of whom belonged to the Kentuck ians, and after an impartial examination before a justice in Norwalk, he was committed to jail touwait is trial at the Supreme Court in Columbus.

S. J. Court .- The case now on trial before this Court is Baring, Brothers & Co. of London, vs. Ebenezer Crafts. In this action damages are laid at \$30,000, the plaintiffs claiming of the defendant, as a silent partner of the house of Hathaway & Co., payment fer certain bills of exchange to the amount of \$10,000, accepted and paid by them Boston Adv. in London. pain is the bones, depression of spirits and prostrance a strength. Scripfilous and mercurial diseases embrace a wide range and their ravages spread to a fearful extent—Mitherto these diseases have baffled medical skill, but recently a secret bas been unfolded from the arcana of nature which triumphs over all opposition.

Sands's Sarsaparilla, a most invaluable medicine prepared wholly from vegetable materials, will arrest, and if timely administered, speedily cure scrufulous, mercurial and other similar diseases by entering into the circulating fluids, passing through the whole animal traine and assimulating itself with the different fibres and tissues which comprise "the monderful machine." It is thus that mercury and its effects are driven out of the system by enabling the powers of Nature to perform their functions properly, and restoring the patient to sound and perfect health

TRead the following Remarkable Cure performed by BRISTOL'S SARSAPARILLA:

Mr. C. C. Bristol—Sir: The mouve that prompts me to address these lines to you, arises from a conviction paramount to that of mere praise of your valuable Sarsaparilla, for if that was my desire I should fail in the attempt, for I feel as though it would require a more powerful pen than mine to do justice to the high claims of so valuable a medicine as Bristol's Sarsaparilla. what has been an effectual remedy when and where the hope of a cure was almost extinct.

I had been informed that you were to visit this city this fail, when I expected to have the pleasure of stating to you what your Sarsaparilla has done for me, but in this I was disappointed, you having left the city before I knew it; I have therefore taken this method to inform you, and through you, all who may desire to know what my afflictions were and also what has proved an antidote to the same.

I was attacked with Scrofula in a very alarving form thou for years since, which spread rapidly throughout my about five years since, which spread rapidly throughout my head, face and throat, internal and external; there were several holes in the roof of my mouth and about the palate,

which was nearly destroyed—my speech and hearing so much affected as to leave but little hope that those senses would ever return to me again as they now are. One of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet the

of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet the same fate.

My nerves were dreadfully affected so as to deprive me of rest or sleep that was any thing like natural, but as one frenzled I passed my sleepless nights and wearisome days. My lower extremities were deathly cold and imanimate.—My teet were greatly extended in size from what was called Dropsy, and in addition to this, for many years I was afficted with Piles in their most severe and distressing form, which is now removed, together with most of my great affictions, through the use of your Sarsaparilla alone, after having the best medical treatment the city afforded.

I am now nearly well—my face has been saved, my mouth and throat healed, my speech and hearing restored, my sight improved, which was very doubtful, my sleep become natural and my appetite good; in a word. I am a different person in feeling and appearance, and there remains not a doubt but that Bristol's Sarsaparilla will effectually accomplish a thorough and lasting cure of all my afflictions.

I am at a loss for language and terms strong enough to speak of your Sarsaparilla as it deserves. It has been to me every thing—to it I owe the preservation of my life under the direction of a wise Providence, and were I capable I would proclaim te all the world what Bristol's Sarsaparilla has done for me. It will afford me pleasure at any time to inform any person who may desire to know any thing I know of Bristol Sarsaparilla.

I enquired the cause of so strange treatment, I having been a subscriber for the Sun from the first number to the present time; believing, as I did, that I was entitled to the same privilege with others in giving publicity to that which I considered to be my dutyto the community, as well as of great importance to the afflicted, that they might know what to apply as a safe and sure remedy. But I was know what to apply as a safe and sure remedy. But I was told that my letter could not go in the Sun at any rate. BALDNESS AND Loss of HAIR—Is caused by a want of healthy action of the vessels which throw off the perspira-tion from the head. When these vessels are weak or diseases, the perspiration is thick and clammy, and adheres to the mouths of the pores and clogs them up, and dries and forms scurf or dandruit. Less blood is then carried to the roots of the hair, and for want of which the hair has roots of the hair, and for want of which the hair has not sufficient nourishment, and consequently becomes dry and harsh, and begins insensibly to fall off, which, continuing to increase, eventually produces baldness. Restore the capillary vessels of the head to their former healthy circulation, and a fine, silky, new hair will make its appearance, which will increase in quality and volume until the hair becomes thick and healthy.

Jame's Hair Tonic is the only preparation that has ever been known to produce new hair on bald heads, which it has done in innumerable instances, and will seldom fail, if properly and perseveringly used.
